

## **Parking Permit Purchase Guidelines**

**To obtain a parking permit at Hillcrest High School, a student must:**

1. Fill out and sign a Parking Permit contract, available in the main office. Parent/Guardian signature is also required.
2. Pay the \$10 permit fee
3. Provide the following documentation at time of purchase:
  - a. Current registration for the permitted car
  - b. Current driver's license for student purchasing permit
4. Have no NG's on his/her transcript.

Students will not be given an opportunity to purchase a permit if the above conditions have not been met. Students without a parking permit will **ONLY** be allowed to park in the overflow lot next to the Seminary building.

**Again, no parking permits will be issued to students with NG's on their academic record at the time of purchase. In other words, students wishing to purchase a parking permit next year must have cleared all existing NG's prior to purchasing a permit.** A Student Parking Permit allows students to park in the large main parking lot, driver's ed range, and side parking lot. Parking in these places is a privilege we reserve for students who attend classes regularly, follow parking lot rules, and provide documentation/payment for a parking permit. While we do have an overflow lot for students who do not have a permit, space there is extremely limited and is not guaranteed.

### **To Clear Previous Quarter NG's:**

Students who need to clear NG's from previous quarters or years need to pick up a green card in the attendance or counseling offices. These cards give students multiple options to choose from in order to clear NG's. These options range from having 10 days of perfect attendance to completing service hours.
